

Step 1 - Look Back Over the Past Seven Days

In the second session of this course, you learned about the 10 Ways God Provides. Look over this sheet and record in a notebook or send yourself an email of the ways God has provided for you in the past seven days.

Step 2 - Assign a Financial Value to Each Blessing

Determine what the financial value was for each financial provision or blessing. In the case of some unexpected blessings that came into your life, the financial value of the blessing would be what you were expecting to spend or would have been willing to spend on an item. For example, if you went out with another couple for dinner and were expecting to pay \$50, but then they paid for your dinner, the financial blessing would be the \$50 you were expecting to spend.

Step 3 - Set Aside 10 Percent or More of Your Financial Blessings in a Giving Account

Come up with a plan or a place where you will intentionally set aside 10 percent or more of your financial blessings as a Giving Fund. Once you transfer money into your Giving Fund, this is money set aside as holy unto the Lord. From this fund, faithfully support your local church with a tenth of your primary income. But from additional sources of income and financial blessings you've identified, these funds can be used, as the Lord directs you, to support missions, ministries, people, programs or projects. From this Giving Fund, you will be able to thankfully, joyfully and generously give to the Lord's work for the rest of your life.
